	3166	VEHICLE, FUEL CELL, FLAMMABLE LIQUID POWERED
	3171	BATTERY-POWERED VEHICLE
	3171	BATTERY-POWERED EQUIPMENT

Declaration

The undersigned, hereby declares that the vehicles and/or equipment offered for shipment fully comply with the relevant requirements of IMDG code (**Amendment 38-16**) Special Provisions 962:

Vehicles, not meeting the conditions of special provision 961 shall be assigned to class 9 and shall meet the following requirements:

1. Vehicles shall not show signs of leakage from batteries, engines, fuel cells, compressed gas cylinders or accumulators, or fuel tank(s) when applicable;
2. For flammable liquid powered vehicles the fuel tank(s) containing the flammable liquid must have a minimum of one quarter tank of fuel and in any case the flammable liquid shall not exceed 250 L unless otherwise approved by the competent authority;
3. For flammable gas powered vehicles, the fuel shut-off valve of the fuel tank(s) shall be securely closed;
4. Installed batteries shall be protected from damage, short circuit, and accidental activation during transport. Lithium batteries shall meet the provisions of 2.9.4, except that 2.9.4.1 does not apply when pre-production prototype batteries or batteries of a small production run, consisting of not more than 100 batteries, are installed in the vehicle and the vehicle is manufactured and approved according to the provisions applied in the country of manufacture or country of use. Where a lithium battery installed in a vehicle is damaged or defective, the battery shall be removed and transported according to SP 376, unless otherwise approved by the competent Authority.

The provisions of this Code relevant to marking, labelling, placarding and marine pollutants shall not apply.
