

For nearly 30 years, the NEAS Group has distinguished itself and contributed positively to the sustainable economic development of the populations and communities of the Far North. They offer distinctive maritime services, relying on modern vessels, the best offer of cargo services, and their 230 highly qualified, professional, and customer-oriented employees.

Technical Superintendent*

You will have the opportunity to use your knowledge and experience of the marine world. In this role, you will be an indispensable asset to the Superintendence and Operations team. Under the supervision of the Vice-President, Operation, your responsibilities will be to:

- Effectively manage the technical, operational, and budgetary aspects of the vessels in collaboration with the crew on board
- Follow up on preventive and corrective maintenance
- Carefully review purchase orders
- Get involved during shipside assistance
- Investigate the incident and take corrective action
- Maintain day-to-day coordination between vessels and shore-based service
- Maintain positive communication and cooperation between the crew on board and shore-based service providers
- Monitor and verify the technical and operational conditions of vessels through on-board inspections
- Protect the interests of the organization in the planning and execution of repairs and dry docks
- Promote the highest standards of operation, improvement, and innovation of ships.
- Any other tasks related to the position may be requested.

Requirements

- Bachelor's degree in marine engineering or a combination of similar studies.
- At least 5 years of experience working onboard commercial vessels
- Minimum of 3 years at sea as Chief Engineer
- Experience in ship inspection, repair, and dry docking.
- Experience in project management: planning, budgeting, and cost control.
- Good knowledge of the marine industry, applicable rules, and regulations

- Communicate easily with internal stakeholders, customers, and suppliers at various levels of authority
- Bilingualism in French and English is required: Read, spoken, and written.
- A demanding position, the ships sail from mid-June to mid-November, and require constant availability.

Qualities

- Excellent ability to quickly grasp issues, analyze, prioritize, and meet deadlines,
- Results-oriented, determined and action-oriented approach

We offer you a host of benefits:

- An enchanting site on the banks of the St. Lawrence River in Montreal and close to the South Shore.
- Attractive compensation and an annual bonus program.
- A good work/life balance: face-to-face and work from home.
- All benefits: Excellent group insurance, very competitive pension plan, employee and family assistance program, telemedicine, etc.
- Reimbursement of public transportation or free parking.
- Continuing education program offered as part of your duties.
- Contribution to a physical activity program.
- Costco Card Payment.

**This position is a regular, full-time position.
Regular trips to Becancour are also planned.**
